

# PLANET Single, Twin, and Bow - Graphic Rail Assembly Instructions

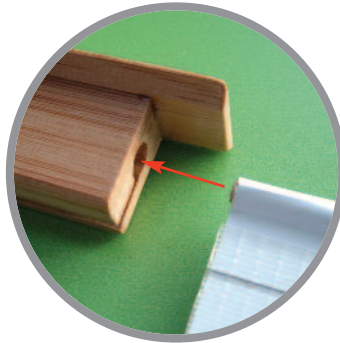

+44 (0) 844 335 3919

1

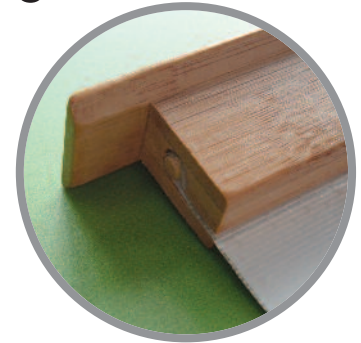

Create a loop with the top 35mm of the finished graphic by folding over bamboo rod. Secure by applying suitable tape along the width of the graphic.

2

Ensuring the rear of the graphic rail (labelled 'Insert') is at the back of the graphic, slide bamboo rod and graphic into channel.

3

Fully slide graphic and rod into bamboo graphic rail until it is flush with both ends. This completes the assembly of the graphic to the graphic rail.
